Why the Eurosun Whole Home Water Filtration System?

- ✓ Cost effective water filtration solution that purifies your home/business entire water supply.
- ✓ High quality components to ensure long life of the system: stainless steel enclosure, gauges frame and brackets.
- ✓ Doubled capacity filters with 20 cm higher than older 10 cm systems in the market. This feature provides more efficiency to the filtration and longevity to the system

Note: Recommended at least every year replacement of filter cartridges but it depends on water quality & usage.

Dimension:
600 W x 740 H x 220 D (mm).

How each filter works?

Stage 1: Sediment Filter

Through a 5 micro polypropylene sediment filter, larger-sized particles from the municipal water are removed to avoid clogging the other 2 filters.

The following are removed at this stage:

Algae

Dirt & Sand

Rust, Silt,
Mud & Clay

Stage 2: Carbon Filter

Through a 5-micron CTO, carbon block cartridges that contains coconut shell, a natural substance used for creating activated carbon. This carbon block filter has highest quality resulting in premium performance in reliability, absorption, and flow rates. It knocks out 99% of chlorine from the water, taste, odours, pesticides, herbicides and other chemicals.

The following are removed at this stage:

VOCs

Chlorine, Taste
& Odours

Herbicides &
Pesticides

Stage 3: Aragon Filter

This filter is the latest technology in water filtration. The Aragon cartridge is made in Europe. It allows to achieve the effect of 'quasi-softening', which is a change in the physical structure of hardness salts in water, in such a way that they cease to form solid deposits when heated (scale) while maintaining the natural mineralization of water.

The following are removed at this stage:

Chloramines

Chemicals

Bacteria

Parasites

Heavy Metals

Calcium
Build-up

Particles > 2 microns	99.999%
Lead	99.95%
Zinc, Cadmium	100%
Cesium	98%
Chlorine	100%
Chloramines	>90%
Pesticides	97%
Iron	90%
Aluminium	97%
Turbidity	99%
Oil Products	90%
Legionella	99.99987%
Salmonella Typhimurium	99.998%
Poliovirus	99.84%
Rotavirus	99.99%
Hepatitis A virus	96%
Bacteria E.coli	100%
Pseudomonas aeruginosa	100%
Colifag f-2	100%
Eterobacter cloaceae	100%

Do you know that water quality can damage and compromise the performance of your home/business appliances and hot water system (Solar or non-Solar)?

Talk to Eurosun senior technicians with a combined 60+ years of working experience!

- ✓ Peace of mind installation
- ✓ Reliable and meaningful free technical advice
- ✓ 5 years warranty and 24/7 service support
